

**JOHN S. CONNOR**  
GLOBAL LOGISTICS  
EST. 1917

## EMPLOYMENT OPPORTUNITY

### Associate Systems Analyst

Full-time Position in Global Logistics

#### Get to Know Us:

A career with **John S. Connor in Global Logistics** is an opportunity for personal and professional growth. In today's exciting logistics field, your contribution will play an important role in the continued success of our esteemed customers. Founded in 1917, we are a leading provider of supply chain and logistics services, customs brokerage, and transportation for global importers and shippers.

#### Company Culture:

At John S. Connor, our success is powered by people and technology. We believe that every customer deserves peace of mind, provided by a comprehensive logistics strategy and a robust technology platform. Our culture and customer-focused mission assure that your contribution will be recognized and rewarding. We encourage employees to be engaged, inspired, and diverse. Success is celebrated, and integrity is at the core of our values.

#### Summary of Position:

The Associate Systems Analyst will assist the IT team with systems implementation and administration, software development projects, data mapping, asset configuration/deployment and tracking, and various other IT activities as assigned. Our company has pushed most of its infrastructure and business operations into the cloud to remain competitive and provide global support to our associates and customers, and our IT group is leading this effort. The best candidates will have some exposure to data and software development concepts, including distributed computing environments, and be comfortable with desktop and mobile infrastructure.

- Assist with the development/design of cloud-based software, including web service APIs
- Analyze data and generate source-to-target mapping documentation
- Work with operations to develop business rules for B2B interfaces and data mapping projects
